

OMNIA

DEFINE THE DIFFERENCE

ACS UK

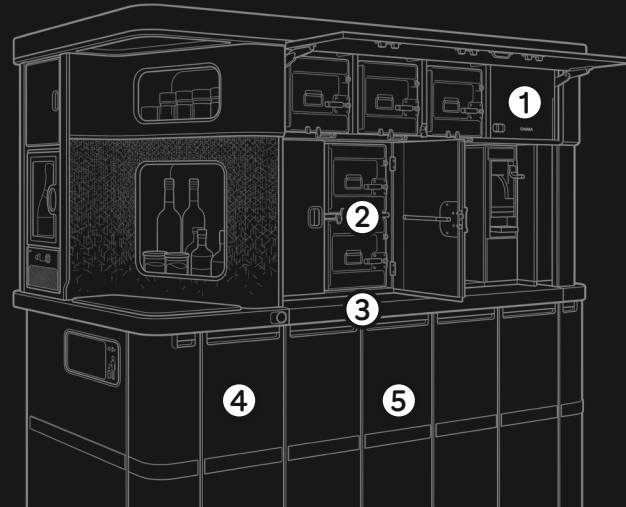

GALLEY REGIONS

OMNIA

OMNIA is a unified showcase of design, innovation and engineering, transforming overlooked cabin spaces into premium, functional and brand-defining experiences. It reimagines the role of cabin monuments, elevating galley, bar and front-row spaces into beautifully crafted moments of brand expression and service excellence.

At the heart of the galley is ACS UK's adaptive work deck – a patent-pending, extendable surface that more than doubles the usable working area in a seamless plane. This breakthrough turns one of the cabin's most constrained spaces into an intuitive, efficient workspace that supports cleaner workflows, reduces complexity and enables consistently premium service delivery.

- 1 Full width upper door
- 2 Mid-height doors
- 3 Adaptive work deck
- 4 Folding trolley stowage
- 5 4 x Full Carts
- 6 1 x Half Cart

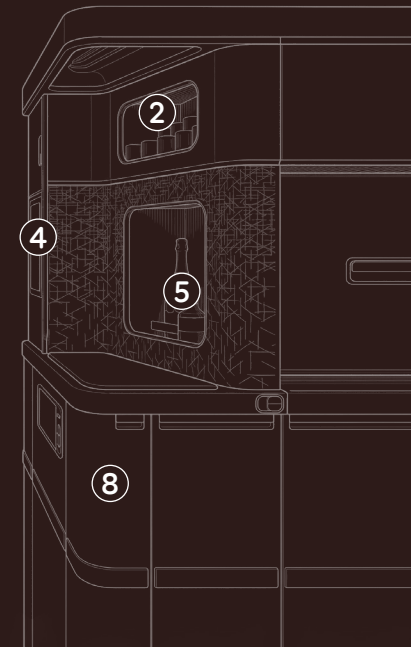

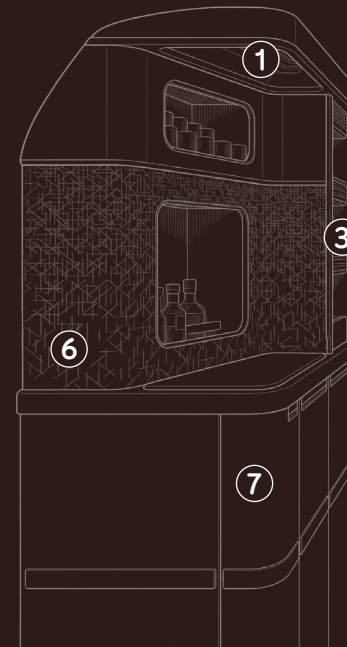

SOCIAL SPACES

OMNIA

Enhanced galley modules allow for greater zoning of 'premium touch points' away from main galley areas.

- 1 Ceiling features
- 2 Glass racks
- 3 Self service tower
- 4 BFE refrigeration unit
- 5 Bar areas
- 6 Decorative finishes
- 7 Closet
- 8 Waste bin

BRAND APPEAL

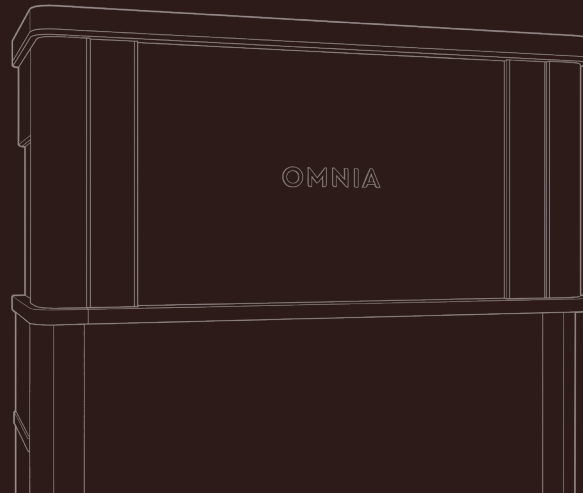

OMNIA

OMNIA reveals the hidden value within the cabin, turning overlooked spaces into operational assets and meaningful points of differentiation for airlines.

It shows how airlines can express their brand beyond expected touchpoints by elevating traditionally functional areas with cohesive aesthetics, premium materials and integrated lighting.

These elements work together to create a recognisable identity throughout the cabin, reinforcing airlines' values and personality and enabling a differentiated passenger experience that feels intentional, premium and uniquely theirs.

- 1 Large branding opportunities are key statement pieces for visual identity *(as seen on opposite page).*
- 2 Integrated aft facing centre panel *(as seen on back cover).*

Turn cabin function into a premium brand statement with OMNIA.
